

HIGH PERFORMANCE
FOOD GRADE LUBRICANTS

ONWVO™

**RAJ PETRO
SPECIALTIES
PVT. LTD.
PROFILE**

RPSPL, a member of the Raj Group is a Petro Specialties conglomerate, with manufacturing locations at Chennai, Silvassa & Ankleshwar and business operations spread across India and in more than 50 countries of the world.

RPSPL is an established market leader in the field of petroleum specialties with a wide range of products ranging from transformer and white oils, petroleum jellies, process oils, additives to industrial and automotive lubricants.

In addition to its comprehensive basket of industrial lubricants for diverse applications, RPSPL offers its ONWO range of speciality lubricants designed to provide effective lubrication solutions for adverse, extreme and difficult requirements. The wide range of ONWO products are tailored to cover almost every niche lubricating requirement in the steel, auto ancillary, food, engineering & other industries.

**HIGH
PERFORMANCE
FOOD GRADE
LUBRICANTS**

ONWO™

ONWO speciality products, developed with technology from U.K. are manufactured at the Company's state-of-the-art production unit at Chennai.

The range includes High Performance Greases and Oils, Aerosol Based Maintenance Products, Specialities and Food Grade Lubricants meeting the best international standards.

Designed to offer effective solutions to difficult lubrication and maintenance needs of the industry, ONWO products withstand extremes of temperatures, high and shock loading, vibrations and high speed under dusty, wet, saturated and chemically corrosive environment. By extending the service life of lubricant as well as components, these products are designed as perpetual problem solvers that result in substantial cost savings and increased production, as compared to limited life achieved with conventional commodity products.

The range certified by NSF, USA besides Industrial Lubricants, includes a complete range of Food Grade Lubricants to be fully safe for incidental contact with food, edible, pharmaceutical and personal care products.

Each product from the ONWO Foodsafe Food Safe range is individually certified by NSF, (www.nsf.com)

ISO 9001-2008, ISO 14001-2004, OSHAS 18001 - 2007, GMP certified company

FOODSAFE PLUS 00, PLUS 1 & FOODSAFE 2 GREASES

A Versatile food grade grease designed to cover a wide range of food safe applications under extremes of temperature, Load, Wet, Saturated and dusty environment.

FOODSAFE HIGH TEMPERATURE GREASE 2

A food grade high temperature grease suitable for all applications subjected to very high temperatures.

Can withstand continuous operating temperatures of Upto 220 Deg C.

Can be used for lubrication of forming & Sealing rollers of blister packing machines and also for baking ovens.

FOODSAFE GEAR OIL 150, 320

A fully synthetic food grade gear oil designed for lubrication of gear boxes & reduction units., Chain drives etc..

FOODSAFE CHAIN & GEAR OIL 220

A fully synthetic food grade oil with excellent adhesive & penetrating properties, which can be used for lubrication of Chains & Gear boxes. Also available in spray form.

FOODSAFE COMPRESSOR OILS

Food grade non toxic oils designed for all types of compressors in Pharmaceutical, Food processing, beverages & Packaging equipment. Available in 46 & 68 cSt.

ONWO™

**FOODSAFE
VHVI
HYDRAULIC
OIL**

Food grade non toxic oil designed for lubrication of hydraulic systems in Food Processing, Pharmaceuticals, beverages & Packaging equipment. Available in 32, 46 & 68 cSt.. Suitable for lubrication of Punches & Dies in tablet Compression Machines.

**FOODSAFE
PAO
HYDRAULIC OIL
100**

Fully synthetic non toxic oils designed for use in hydraulic systems where ISO VG 100 oils are recommended.

Suitable for systems operating at very high temperatures. (Upto 240 deg C)

**FOODSAFE
ASSEMBLY
GREASE**

A white, non-toxic grease like compound with high solid lubricant content designed for use as an assembly lubricant in a wide range of food safe applications.

**FOODSAFE
ULTRA CLEAR
00 & 2
GREASES**

Synthetic gel like grease which is non melting and non toxic. Suitable for lubrication of bearings, Plastic components & O Rings in water filtration system. Resistant to salt water and also resists vibration in vibrofeed systems.
